Submissions Process

9. Submissions were received via a number of channels including online, email, posted hardcopy and hand delivered. The submissions, as entered into the Council's submissions tracking system, are attached under separate cover.

Item 3

10. The submissions report lists the option chosen by the submitter for each of the six consultation topics and reasons given (if any) as well as other matters and any general feedback given. To reduce the volume of the report blank spaces have been removed where no option was chosen.
11. The snippet below gives an example to show the format of the report.

Area: Ngaruroro Verbal submission? No	Submitter #7 Glenn Abel
1.Right Tree Right Place: <i>Option 1 (preferred)</i> -	
2.Future water use: <i>Option 1 (preferred)</i> - Stop the water bottlers who are using and selling water, also fix all known and future leaks in existing wells or bores, one is flowing and has been flowing for at least 14 years	
3.Upper Tukituki gravel: <i>Option 1 (preferred)</i> - Used to have a business removing gravel and selling it, what happened to it?	
4.Clive River dredging: <i>Option 1 (preferred)</i> - You are taking about the 2030 program and haven't done the 2020 yet. You can not pump it to sea as its toxic, how is it toxic, could it be the weed that floats down and drops causing the sediment? Not a lot floats to sea, and if it did then that's pollution. Really needs to be flushed out as the sediment is slowly dropping up stream as far as the rail bridge.You have a number of rivers all emptying into one basin, the one with the most flow will be the dominate one and the others will slowly silt up. That's what is happening.	
5.On-demand public transport: <i>Option 1 (preferred)</i> -	
6.Ahuriri Regional Park: <i>Option 1 (preferred)</i> - What ever has been done lately has killed the pond for swimming, maybe the extra area with all the birds is further polluting the water way?	
General feedback - Get Councils act together about dredging Clive and stop weed drifting down Clive. Extra rates for Havelock to cut weed as it stops flooding in that area and to remove the weed.	

12. A small number of submissions that were received by hard copy which traverse a range of topics are attached in the format received.
13. A total of 762 submissions were received. This compares to 569 received three years ago during the consultation on the 2018-2028 Long Term Plan.
14. The following bar graph shows the support (whole of region) for each of the six consultation topics. A further breakdown by area (Wairoa, Napier, Hastings, Ngaruroro, CHB, out of region) will be provided in the Deliberation Reports. Noting that Option 1 is the Council's preferred option and not all topics have 3 options.

Decision Making Process

15. Staff have assessed the requirements of the Local Government Act 2002 in relation to this item and have concluded that, as this report is for information only, the decision-making provisions do not apply.

Recommendations

That Hawke's Bay Regional Council receives and considers the written submissions received to the "*Time to Act – Kia Rite! 2021-2031*" Long Term Plan consultation.
